

Job Title: Maintenance Technician (Mechanical, Pneumatic, Hydraulic & Electrical)

Location: IHC suspension

Pay Range: \$14.00 – \$20.00 per hour (Based on experience and knowledge)

Job Type: Full-Time 40hrs min

Job Summary:

We are currently seeking a skilled and dependable **Maintenance Technician** to join our manufacturing facility. This individual will be responsible for the maintenance, troubleshooting, and repair of a wide range of equipment and systems, including mechanical, pneumatic, hydraulic, and electrical components. Additional responsibilities include basic groundskeeping and forklift operation. The ideal candidate is hands-on, proactive, and capable of working independently or as part of a team to ensure equipment uptime, facility upkeep, and workplace safety.

Key Responsibilities:

- Diagnose, troubleshoot, and repair mechanical, pneumatic, hydraulic, and electrical systems and equipment
- Perform routine preventive maintenance to ensure optimal machine performance
- Respond promptly to equipment breakdowns and prioritize repairs based on production needs
- Operate forklifts to assist with maintenance tasks and equipment movement
- Perform basic groundskeeping duties (e.g., lawn care, debris removal, minor outdoor repairs) to maintain a clean and safe facility exterior
- Read and interpret blueprints, schematics, manuals, and work orders
- Maintain accurate records of maintenance work and equipment logs
- Follow all safety protocols and ensure machinery is compliant with company and regulatory safety standards
- Assist with installation of new machinery and relocation of existing equipment

- Handle day-to-day groundskeeping duties, such as mowing, weed control, debris cleanup, and general upkeep of exterior areas
 - Communicate effectively with production staff and supervisors regarding equipment issues and repair timelines
 - Strong problem-solving skills and ability to work under pressure
-

Requirements:

- High school diploma or GED required; technical or trade school certification preferred
 - Minimum 2 years of relevant maintenance experience in a manufacturing or industrial setting
 - Strong working knowledge of mechanical, pneumatic, hydraulic, and electrical systems
 - Ability to read technical drawings, schematics, and manuals
 - Experience using power tools, hand tools, and diagnostic equipment
 - Basic groundskeeping knowledge and willingness to work both indoors and outdoors
 - Forklift certification or ability to obtain one (company may provide training)
 - Must be able to lift 50 lbs., stand for long periods, and work in industrial conditions
 - Ability to work independently, multitask, and prioritize under pressure
 - Basic computer skills for maintenance recordkeeping
-

Preferred Qualifications:

- Experience with PLCs or automation systems a plus
 - Bilingual (English/Spanish) is a plus
 - Welding or fabrication skills a plus
-

Benefits:

- Competitive pay based on experience and skill level
- Health, dental, and vision insurance (future)
- Paid time off and holiday off
- Opportunities for advancement and skill development

To Apply:

Please submit your resume and include any relevant certifications or experience. Interviews will be scheduled with qualified applicants.
